## Your support can transform lives!

Thanks to your generosity, Wafa was able to pursue a double degree at KTH in Sweden after a final-year internship at MIT (USA). She is a fine example of the direct impact of your donations: 'Centrale Nantes has played a fundamental role in my career and fuelled my ambitions. Without the Foundation's support, it would have been very hard for me to make all this happen. I would like to thank you from the bottom of my heart for giving me the means to complete my studies with such a sense of fulfilment.'

**You too can help other students realise their dreams. Every contribution, however small, has a real impact.**

Thank you for being part of our story.

The Fondation Centrale Nantes has three ambitions:

Equal opportunities and inclusion,  
A sustainable campus accessible to all,  
Innovation and science for change.
